

Families in the North have unique challenges that will require thoughtful consideration and solutions. There will be a Telephone Town Hall on Monday, May 6, 2019 for Northern and rural families. Please make sure your voices are heard. Families throughout the North are excellent advocates and have done an incredible job highlighting the critical components required to create a meaningful system of supports. Please continue to share your advice and feedback, it is important and essential to ensure that all children have access to quality service and support in their home community.

As we find our way through the transition of the Ontario Autism Program we acknowledge that the volume and accuracy of messages about the program can often be confusing. CCR will continue to proactively provide any details as they are confirmed by Ministry of Children, Community and Social Services (MCCSS), and we continue to actively engage in conversations with MCCSS to express our concern for families living in our region.

### **Telephone Town Hall**

#### **May 6**

8:00 p.m. – 9:00 p.m.

Focused on families who live in Northern and rural communities, however all are welcome to join.

#### **To Register:**

Visit [www.ontario.ca/autism](http://www.ontario.ca/autism) and click on Telephone Town Halls
