

# Understanding Autism for Families

Child & Community Resources is offering Understanding Autism, a presentation which will allow you and your family to explore the diagnosis of autism. The presentation will explain the special talents and abilities that make individuals with autism unique. In addition, the presentation can help participants to understand the difficulties with language, communication and behaviour that individuals with autism face every day.

This learning opportunity allows grandparents, parents, siblings and other extended family members to explore autism and learn alongside one another. We are confident that this program will allow your family to “walk in someone else’s shoes” as you are given the opportunity to experience challenges that are experienced by those with ASD through hands on activities.

**\*Recommended for ages 5 and up**

**Monday February 25, 2019
